

An Alternative to
In-Patient Detox
and
In-Patient Treatment

New Beginnings Recovery Center (NRBC) offers a full range of quality substance abuse treatment services including **Out-Patient Detoxification** provided by highly skilled professionals. With years of experience in various clinical areas, we provide highest quality treatment in the broadest spectrum available.

NRBC helps individuals with life controlling issues such as substance abuse, addiction and other disorders. We address the condition, the root cause of the condition with proven holistic treatment approaches. We offer hope to many who previously had no hope. Quality of life restoration is one of our primary goals along with teaching individuals how to live life "drug free".

We are in Recovery

We are owned and operated by people in recovery—this makes a big difference. We believe in what we do because our lives depend on it!

Why are we different?

You will immediately notice that we care from the very first phone call. That level of care and support will continue throughout your treatment. We offer a comprehensive **After-Care Program**. If you don't feel valued when you walk through our doors then we haven't done our job. Our programs are designed to give you to best quality treatment for the lowest possible cost.

***"Isn't it time to take
back your life?"***

A full range of clinical services:

**OUT-PATIENT (Ambulatory)
SUBSTANCE DETOXIFICATION**

- Out-Patient Detoxification of opiates, methadone, alcohol, benzodiazepines, sleeping pills, and cocaine for **Adults and Adolescents**
- **Gambling Detox**—treatment for compulsive gambling disorders with pharmacological interventions combined with substance detoxification

We Medically Detox from:

OPIATES | ALCOHOL | BENZOIAZEPINES
COCAINE | OXYCODONE | SLEEP AIDS
SOMA® | METHADONE | HEROIN | AMBIEN®
OXYCONTIN® | PRESCRIPTION MEDSICATIONS

Individual and Group Counseling

- Substance Abuse Group Therapy
- Support Group for Family Members
- Adolescent Substance Abuse Groups
- Individual Psychotherapy—Life coaching
- Marriage and Family Therapy
- Co-Dependency Counseling
- Adolescent behavioral counseling
- Christian Counseling
- Gambling addiction counseling
- Experienced Interventionist On-Staff
- Mood Disorders, Eating Disorders
- Sexual Addiction

**DETOXIFICATION AND RESIDENTIAL
TREATMENT PROGRAM**

Now you can **detox** simultaneously while in **treatment**. You no longer need to first complete a 7-10 **detoxification** before your stay in **In-Patient Treatment**. Plus, our combined program costs *LESS* than the cost of comparable treatment *WITHOUT DE-TOX!* We offer 7, 14 and 28 day stays.

OUR BELIEFS

NRBC has strong beliefs that inform and govern its decisions and programs.

- Addiction is a holistic disease involving the entire body
- Addicts are not bad people but the active disease leads to poor choices with negative consequences
- Addiction has a strong compulsive physical component which frequently leads to drug seeking behavior
- Addicts addicted to one substance are addicted to all substances
- Medication alone (medical detoxification) is not the best way to combat addiction.

If you're still not sure if **NRBC** can help, pick up the phone and arrange for a private one hour consultation or visit our website. With two convenient locations, our team of professionals welcome the opportunity to work with you through this difficult time.
